An independent member of the Baker Tilly Europe Alliance

Energy Tomorrow

TPA would like to invite you to Energy Tomorrow. This annual information event **on the topic of energy** will take place for the seventh time this year.

We are pleased to be able to announce that Dr. **Michael Losch, Head of Department and Director of the Energy and Mining Section** at the Austrian Federal Ministry for Sustainability and Tourism, will give the **opening speech** at Energy Tomorrow.

What is the current situation regarding the actual implementation of the energy revolution? In his keynote speech **“Energy Revolution: Now or never?”**, Prof. Dr. Ingo Stadler will not only touch on the great opportunities in the various energy sectors, but also on the fears which the energy revolution brings with it.

Is the climate even suitable as a motivator for the implementation of the energy revolution? Or do we need quite different motivators as boosters such as, for example, economic growth, jobs and autarky? Who will profit from the future energy revolution?

Prof. Dr. Stadler will additionally take a critical look at current regulations which are blocking an implementation, and will demonstrate approaches which are needed to bring about the energy revolution effectively and quickly.

Thereafter we will move on to some exciting presentations by the Austrian showpiece companies **Kreisel Systems** and **BitTex**, which will be both rich in content and forward-thinking.

In addition the classic and important energy topics such as **the new eco-electricity subsidy, wind power and energy efficiency** will be analysed from fresh perspectives and an economic aspect.

About TPA

As one of the leading tax advisory and auditing services companies, the TPA Group can provide the necessary industry-specific knowledge and the long-standing experience to perfectly interpret and push the current and future developments in the energy business sector.

Every year TPA looks forward to being able to host all those industries that will play a significant role in shaping our future.

Energy Tomorrow will inform and inspire its audience.

We are looking forward to seeing you there!

Program

- 8:30** Registration
- 9:00** **Welcome**
Karin Fuhrmann, Partner TPA Austria
- 09:05** **Opening**
Michael Losch
Head of Department | Director of the Energy and Mining Section
Austrian Federal Ministry for Sustainability and Tourism
- 09:25** **Keynote Speech | Energy revolution: Now or never?
Opportunities for a big change**
Ingo Stadler
Expert on Renewable Energy and the Implementation of the Energy Revolution
Professor at the Cologne University of Applied Sciences
- 10:20** **Why it makes sense to electrify the world**
Walter Kreisel, CEO Kreisel Systems
- 10:50** **Break**
- 11:10** **The new eco-electricity subsidy**
Bernd Rajal, Partner Schönherr
- 11:40** **Closing wind projects at grid parity, respectively construction
without subsidy.**
A compact feasibility study based on latest development in CEE/SEE
Wojciech Sztuba, Partner TPA Poland
- 12:10** **Incentives for Energy Efficiency in CEE/SEE**
An overview of the CEE/SEE region
Johannes Becker, Partner TPA Romania
- 12:35** **Blockchain – what's currently possible, what's next?**
An overview of the most known blockchains and their stages of development
David Schnetzer, CTO BitTex
- 13:05** **Invitation to lunch**

We would like to warmly invite you to this event.

Energy Tomorrow

Date: Monday, 16th April 2018
Time: 8:30 – 14:00
Venue: Wolke 19 in the Ares Tower, Donau-City-Straße 11, 1220 Vienna

**Please simply register yourself with a few clicks at the
